RE: Brain Sucking Aliens

Dear Special Knowledge Presentation Team,

What I am about to tell you is TOP SECRET!

Two nights ago a ship of knowledge seeking aliens landed in Washington D.C. The aliens went to every member of the executive, legislative, and judicial branches of government and sucked the memories right out of their brains! As of right now, none of the government officials know anything about their jobs!

You mission, should you choose to accept, is to create a presentation that restores the officials memories. I have to warn you that many of these people are very old and kind of cranky so your presentation needs to be more than just telling them the facts. They will need to be tricked into learning this information so you may want to sing them a song, show them a skit, make them a board game, or whatever you think would be fun.

This is a highly secretive and important mission that needs to be of the highest quality. In order for us to call you mission successful your presentation and materials must show evidence of careful work and more than one draft. We will not accept a presentation that was not well thought out!

MISSION OBJECTIVES:
- Create a presentation that tells the officials at least seven important facts about their jobs
- Presentation tricks people into learning by being fun and
interesting
• Your work must be high quality

I have been in contact with your outstanding teacher, Mr. Rathbun, and he assures me that he will provide you with the materials needed to complete this mission. You will only have two weeks!

Our country is counting on you!

Sincerely,

Secret Agent Smith
