Table 2: Profession-Wide Competencies Template: Complete the table for each of the profession-wide competencies (see IR C-8 D) to demonstrate how each required competency is covered.

The program should also use this table as it prepares proximal data consistent with the requirements of Implementing Regulation (IR) C-18 D. Proximal data must be collected at the element level and presented at the competency level; distal data may be collected and presented at the competency level. IR C-18 D states that, “Accredited programs are required to operationalize competencies in terms of multiple elements. At a minimum, those elements must reflect the content description of each PWC defined in IR C-8 D, including the bulleted content, and must be consistent with the program aim(s).” The table below has been pre-populated with the required elements from IR C-8 D, and programs must ensure that multiple elements are listed in Table 2 and assessed for each competency.
Table 2 (Doctoral); Standard II.B.1.b

<tr>
<th>Competency:</th>
<th>(i) Research</th>
</tr>
</thead>
</table>
| Elements associated with this competency from IR C-8 D | • Demonstrate the substantially independent ability to formulate research or other scholarly activities (e.g., critical literature reviews, dissertation, efficacy studies, clinical case studies, theoretical papers, program evaluation projects, program development projects) that are of sufficient quality and rigor to have the potential to contribute to the scientific, psychological, or professional knowledge base.  
• Conduct research or other scholarly activities.  
• Critically evaluate and disseminate research or other scholarly activity via professional publication and presentation at the local (including the host institution), regional, or national level. |
| Required training/experiential activities to meet each element. If applicable, clarify where activity description (e.g., syllabus) is located. | • Students demonstrate the independent ability to formulate research or other scholarly activities by successfully completing PSYC7310 Research Ethics & Quantitative Methods and Analysis I, PSYC7320 Quantitative Methods and Analysis II, PSYC7330 Qualitative Methods and Analysis I, PSYC7340 Qualitative Methods and Analysis II.  
• Students demonstrate that they can conduct research or other scholarly activities by completing The PSYC7340 Qualitative Methods and Analysis II course and their dissertation.  
• Students demonstrate the ability to critically evaluate and disseminate research or other scholarly activity by completing the final public dissertation defense and dissertation publication. |
| How outcomes are measured for each training/experiential activity listed above. List where in the self-study all associated evaluation tools are located. | How outcomes are measured:  
• Performance in PSYC7310, PSYC7320, PSYC7330, PSYC7340.  
• Performance in the final dissertation defense.  
Evaluation tool and self-study location:  
• Rubrics in the course syllabi for PSYC7310, PSYC7320, PSYC7330, PSYC7340.  
| Minimum levels of achievement (MLAs) for each outcome measure/evaluation tool listed above. | • Successful completion of PSYC7310, PSYC7320, PSYC7330, PSYC7340 designated by Pass (equivalent of B- or better).  
• Achieving a 2 or higher on all items for all meetings on the dissertation defense form rubric.  
• Publication of dissertation via OhioLink. |
<table>
<thead>
<tr>
<th>Competency:</th>
<th>(ii) Ethical and legal standards</th>
</tr>
</thead>
</table>
| Elements associated with this competency from [IR C-8 D](#) | • Be knowledgeable of and act in accordance with each of the following:  
  o the current version of the APA Ethical Principles of Psychologists and Code of Conduct;  
  o Relevant laws, regulations, rules, and policies governing health service psychology at the organizational, local, state, regional, and federal levels; and  
  o Relevant professional standards and guidelines.  
• Recognize ethical dilemmas as they arise, and apply ethical decision-making processes in order to resolve the dilemmas.  
• Conduct self in an ethical manner in all professional activities. |
| Required training/experiential activities to meet each element. If applicable, clarify where activity description (e.g., syllabus) is located. | • Students demonstrate knowledge of the current version of the APA Ethical Principles of Psychologists and Code of Conduct; Relevant laws, regulations, rules, and policies governing health service psychology at the organizational, local, state, regional, and federal levels; and Relevant professional standards and guidelines in PSYC7300 Ethics and 7450 Advanced Ethics.  
• Students demonstrate the ability to recognize ethical dilemmas as they arise, and apply ethical decision-making processes in order to resolve the dilemmas in the ethical vignette of the Clinical Competency Exam.  
• Students conduct themselves in an ethical manner in all professional activities through the clinical training sequence. |
| How outcomes are measured for each training/experiential activity listed above. List where in the self-study all associated evaluation tools are located. | How outcomes are measured:  
• Performance in PSYC7300 and PSYC7450.  
• Performance on the ethical vignette of the Clinical Competency Exam.  
• Performance in clinical training.  
Evaluation tool and self-study location:  
• Rubrics in the course syllabi for PSYC7300 and PSYC7450.  
• Clinical Competency Exam scoring criteria for both the written and oral component in the CCE handbook (Appendix D, E & F).  
• Summative Supervisor Evaluation Form. |
| Minimum levels of achievement (MLAs) for each outcome measure/evaluation tool listed above. | • Successful completion of PSYC7300 and 7450 designated by Pass (equivalent of B- or better).  
• A rating of Pass on the ethical domain and a rating of Pass on the overall Clinical Competency Exam.  
• Ratings of 3 or above on the Ethics domain of the Summative Supervisor Evaluation Form. |
